Review:

Birdsong and the Eco-Wonders' *Everything is Connected* is an engaging collection of nature inspired songs that will prompt young listeners to start thinking about the world around them.

"Orcas" opens with the sounds of the gentle giants to grab the attention of listener. "Honk, Honk" allows kids to sing along while celebrating the sounds of the majestic birds. An instant hit in homes with children under the age of 7, the "Worm Poop Song" is creatively crafted to generate giggles while singing along with educational eco-centric lyrics. "Adapt to Habitat" ends the collection incorporating a gentle use of rap to engage the importance of taking care of the world around us. Birdsong and the Eco-Wonders use gentle rhythms to engage young listeners and inspire future green scientists and nature lovers.
